

The B-Class

Price List as of 1st April 2021

Mercedes-Benz

Welcome

At Mercedes-Benz we appreciate the importance of detail. Over the following pages you'll find model prices and a breakdown of standard and optional equipment, as well as details of the attractive finance offers and benefits that are available to every Mercedes-Benz driver.

We have highlighted some of the best styling features both inside and out, some of the new technology features and some body styling options which all combine to give you a unique driving experience. To experience a full listing of what is available; please speak directly to your local Mercedes-Benz Dealer.

Of course, some things have to be experienced to be truly appreciated, such as the qualities that set a Mercedes-Benz apart, which is why we'd like to invite you for a test drive at your local Mercedes-Benz Dealership. Discover the location and the contact details of your local Mercedes-Benz Dealership at **www.mercedes-benz.ie**

This is a Consumer Hire Purchase agreement provided by Bank of Ireland t/a Bank of Ireland Finance. CO2 range: 138 – 130 g/km and 6.0 – 5.7 l/100km.

A silver Mercedes-Benz B-Class car is parked on a paved street. In the background, there is a white picket fence and a colorful inflatable playhouse with yellow and green sections. A tree trunk is visible on the left side of the frame.

Justify nothing.

If everything feels perfect, you really have no need to offer justification for anything. Not for your lifestyle. Not for your sense of style. And least of all for a car that offers exemplary safety and comfort. The most intuitive operating concept in its class, and styling that is more dynamic than ever before. Discover the new B-Class from Mercedes-Benz.

As you like it.

Emphatically sporty, particularly elegant or dynamically modern: you set the tone for the exterior of the new B-Class. Choose between the AMG Line, Style and Progressive. And combine these as you wish with optional equipment and packages. To make the B-Class your very own B-Class. Exactly to your taste.

A silver Mercedes-Benz B-Class car is shown from a front-three-quarter perspective, driving on a city street. The car's front grille features the Mercedes-Benz star emblem and a license plate that reads 'S MB 2471'. The background is blurred, suggesting motion. The text 'This same sort of variability is also to be found in relation to the ride feeling.' is overlaid in the upper right corner.

This same sort of variability is also
to be found in relation to the ride feeling.

A tap on the DYNAMIC SELECT switch is all it takes for a sporty set-up. Optional 4MATIC all-wheel drive engages automatically for added traction. And two cylinders can be shut down automatically to save fuel. The new B-Class offers a thrilling driving experience tailored perfectly to you and your driving situation.

A detailed view of the front interior of a Mercedes-Benz car. The dashboard is black with a horizontal orange LED light strip. Below the dashboard is a large, textured silver panel. To the left, there are two circular air vents with orange accents. The center console is a light beige color with a silver door handle. The passenger side door is also visible, featuring a silver door handle and a black panel with orange accents. The overall design is sleek and modern.

Family cars are not what they used to be.

Elegant trim elements, sensuously pure lines and a dynamic “wrap-around” design embrace you as soon as you get into the car. The state-of-the art steering wheel with Touch Control buttons and the optional Widescreen Cockpit with intuitive voice-operated control are there to take the pressure off you when driving. At a touch, or with just two little words: “Hey Mercedes”.

Climb aboard.

Whether with its raised seating position, its excellent all-round visibility or its extra-low load compartment sill: the new B-Class simply gives you more freedom. A variable load compartment floor, along with rear seats that split in up to three ways, also enhance the car's flexibility and space.

The image shows the front interior of a Mercedes-Benz B-Class car. The seats are upholstered in a light-colored, textured leather with vertical stitching on the backrests. The dashboard is black with a large, curved digital display showing various vehicle metrics and a navigation map. Below the display are three circular air vents with orange-lit surrounds. The center console features a touch-screen infotainment system and a gear selector. The steering wheel is black with the Mercedes-Benz logo in the center. The overall design is modern and luxurious.

Your Personal Assistant is already to hand.

Apart from its fully intuitive operation, the new B-Class also gets better every day at adapting to your needs and habits. It notes your route to the office, for example, and can automatically offer a faster route in case of a traffic jam. You can also ask it to combine several systems at once into a revitalising or relaxing convenience programme.

Because safety is sometimes everything.

The new B-Class can be optionally fitted with a series of assistance systems that are now able to react even more intelligently, precisely and quickly. At speeds of up to 200 km/h these will automatically hold you at a set distance, change lane, start up again in queuing traffic or even brake if need be. This means you and your passengers are always in the best of hands.

Energizing comfort and exemplary safety.

In rush hour, during a long drive at night or on an unfamiliar route, your new B-Class noticeably takes the strain out of driving, particularly in stressful situations. It's all down to a concept that makes every journey in a Mercedes-Benz a safer and exceptional experience: Mercedes-Benz Intelligent Drive. Because the time you spend behind the wheel is your time. Time for relaxation. Time to replenish your energy. So that, first and foremost, you reach your destination safely, but are also relaxed when you get there.

EQUIPMENT HIGHLIGHTS – DRIVING ASSISTANCE SYSTEMS

The **Driving Assistance package** is a combination of sophisticated safety and assistance systems that can detect danger and issue an alert, or even brake, in an emergency.

PRE-SAFE® system. The innovative PRE-SAFE® Sound system generates a noise from the loudspeakers that can trigger a protective reflex: your auditory system briefly disconnects, thereby protecting itself from the loud noise of a crash.

Traffic Sign Assist: the camera and navigation data have the applicable speed in their sights at all times – so you are always aware of the current speed limit, even amid a forest of signs.

Park with an easy mind. The duo of **Active Parking Assist** and **360° camera** supports you in looking for a parking space, as well as when entering and leaving a parking space or manoeuvring. The all-round view, thanks to the 360° camera including a virtual bird's-eye view, is particularly impressive.

MBUX (Mercedes-Benz User Experience).

Apart from its fully intuitive operation, the new B-Class also gets better every day at adapting to your needs and habits. It notes your route to the office, for example, and can automatically offer a faster route in case of a traffic jam. This all forms part of the revolutionary MBUX (Mercedes-Benz User Experience). A multimedia system that keeps learning about you and your preferences. Until the new B-Class knows you almost better than you know yourself.

EQUIPMENT HIGHLIGHTS – CONTROL AND DISPLAY CONVENIENCE

Widescreen Cockpit with LINGUATRONIC voice control system: thanks to the new MBUX voice control system, the new B-Class listens to you and understands you, without having to learn any commands beforehand. Two words from you are all it takes: “Hey Mercedes”. and the new B-Class is all ears and ready for anything.

Touch Control concept: you won’t find any conventional buttons and controls in the B-Class cockpit. Everything is new here. The touchscreen or the touchpad, for example, which allow you to operate and adjust almost anything in the car using a single finger.

Augmented Video: MBUX augmented reality for navigation helps you to keep control of things even in complex traffic situations. To achieve this, the technology networks the virtual world with the real one and incorporates graphic navigation and traffic information into live images of the vehicle’s surroundings, as shown to you on the media display.

Display styles: the cockpit welcomes you with two fully digital displays that present a fascinating spectacle as a single unit. There is a choice of three styles for the instrument display – “Classic”, “Sport” and “Discreet Mode”, which you can switch between according to your mood, the course of the journey or the given driving situation.

Ambient lighting in 64 colours.*

With its pleasant, indirect light, the optional ambient lighting creates a unique atmosphere throughout the interior. Completely to suit your personal preference or mood. There is a range of 64 colours, while you can also choose between stylishly coordinated colour schemes and lighting effects that immerse the ventilation outlets, the doors and the instrument panel, for example, in a fascinating interplay of colours. So ensuring that you and your new B-Class are always seen in the best light.

*Optional equipment

ENERGIZING package Plus.*

An attentive, focused driver is one of the most important contributory factors to safer driving. With this in mind, the optional ENERGIZING package Plus combines various systems – air conditioning, ambient light, music and seating comfort – into programmes lasting several minutes that are designed to revitalise or relax you.

*Optional equipment

MULTIBEAM LED headlamps*

Apart from setting a new benchmark in design, the MULTIBEAM LED headlamps also illuminate the road better than any conventional headlamps. This means you can recognise danger even more quickly.

*Optional equipment

Panoramic sliding sunroof.*

Experience direct open-top motoring pleasure, almost like in a cabriolet or roadster – refreshing and draught-free. Simply push back the panoramic sliding sunroof to any position. Even if the panoramic sliding sunroof is closed, its transparency brings more light and brightness into the interior: lightening your mood, too.

*Optional equipment

The Style design and equipment line. (standard)

With the Style design and equipment line your car stands out from the standard equipment. A youthfully cool look inside and out. This includes additional features such as the 16-inch light-alloy wheels plus upholstery and topstitching in trendy colours which are exclusive to the line.

The Progressive design and equipment line from *€825

The Progressive design and equipment line substantially enhances your car. Added value that you can see and feel. The excitement and high-quality engineering associated with a desirable Sports Tourer is intensified from every perspective . This line also opens up the option of other attractive combinations for both inside and out – for example the Leather and Night package.

*Optional equipment

The AMG Line equipment line* from €4,113

The AMG Line reinforces the car’s attractive, sporty appeal, on the exterior as well as in the interior. The AMG bodystyling and the diamond radiator grille with its single louvre, in particular, are exclusive features. Your driving experience is intensified by the lowered and sportily configured suspension and the Direct-Steer system. The ideal complement: the sports steering wheel with flattened bottom section, trimmed in elegant nappa leather.

*Optional equipment

Comfort suspension.

Enjoy a high level of comfort on long motorway stretches while tackling tight curves with sporty flair. The balanced comfort suspension provides an impressive mix of responsive suspension reserves with excellent driving stability. This makes your driving safe while at the same time providing a great deal of driving pleasure.

SUSPENSION WITH ADAPTIVE DAMPING SYSTEM

Would you like more fun at the wheel in bends or high comfort over a long distance? The suspension with adjustable damping offers this exciting spectrum. The DYNAMIC SELECT rocker switch in the centre console is used to select the programme and thus the characteristics: "Eco", "Comfort" or "Sport". As though you had two suspensions in one car: refined sportiness, in fact.

8G-DCT.

An automatic transmission that adapts to your wishes: by changing the driving programme, you also change the characteristics of the dual clutch transmission. According to your selection, it uses the 8 gear speeds to deliver efficient driving at low engine speeds or impressive dynamic performance. Because the next gear is always already preselected, acceleration is completely smooth.

COMPONENTS

8-speed dual clutch transmission made up of two sub-transmissions, each with its own clutch

8 forward and 1 reverse gear

DIRECT SELECT selector lever on the steering wheel

High-quality steering-wheel shift paddles – on the left to shift down and on the right to shift up

¹ Information about the rated output according to Regulation (EC) No. 715/2007 in the currently applicable version. ² Available temporarily. ³ Electronically limited. ⁴ The stated figures were determined according to the prescribed measurement method. They constitute the "NEDC CO₂ figures" pursuant to Art. 2 No. 1 Implementing Regulation (EU) 2017/1153. Fuel consumption figures have been calculated on this basis. More information about the official fuel consumption and the official specific CO₂ emissions of new passenger cars is available in the publication entitled "Leitfaden über den Kraftstoffverbrauch, die CO₂-Emissionen und den Stromverbrauch neuer Personenkraftwagen" ["Guidelines concerning the fuel consumption, CO₂ emissions and electricity consumption of new passenger cars"], available free of charge from all retailers and from Deutsche Automobil Treuhand GmbH (www.dat.de). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures will vary according to the optional equipment selected. ⁵ Information only valid within the European Union. May vary from country to country. ⁶ Determined on the basis of the measured CO₂ emissions, taking into consideration the vehicle mass. Only valid for Germany. For more technical data, please visit www.mercedes-benz.com

Dimensions

All figures in millimetres. The illustrated dimensions are mean values. They are valid for vehicles in basic specification and in unladen condition.

Upholstery and trim
